

Focus. Clarity. Results

Thoughtcorp has a 14-year history of partnering with clients to make their business objectives a reality. With a pervasive focus on Value, Certainty, and Thought Leadership, we are delivering solutions that bring quantifiable business benefits to leading Global 2000 companies.

Thoughtcorp delivers Enterprise Data Management, Business Architecture and Application services across every vertical, with deep business process knowledge in the Retail, Communications, Financial and Health Services industries. With one-third of our business focused on Enterprise Data Management, we understand our customers' data better than any of our competitors.

Our objective is simple: to thrill our customers with the best value and solutions in the industry.

Here's how we do it;

Thought Leadership: We challenge ourselves to seek new ways achieve our objectives, continually looking for operational efficiencies and solution excellence.

Certainty: We strive to deliver on our promise of flawless execution, and error-free solutions that are on-time, on- budget, and on-scope.

Leveraged Intellectual Property: We reduce time and cost-to-market by bringing our own proven intellectual assets to your solution.

In addition to project-based business solutions, Thoughtcorp's services include:

- Project/Program Management
- Business and System Requirements Analysis and Documentation
- Quality Assurance and Acceptance Test Planning and Execution
- Post Deployment/Application Maintenance Support and Transitioning
